

Intuitive Support

Enhance Your Intuitive Receptivity & Trust

Support is the tangible, obvious, felt-sense that you are not alone, ever... no matter what. It is a knowing or certainty that you are connected to a conscious intelligence. It is the energy - light - love - sound - vibration that sustains you. **This workshop will help you tap into and deepen your personal awareness of intuitive support.**

Austin, Texas

I am a full-time professional intuitive and animal communicator. I've recorded over 26,000 sessions with people from all walks of life. The vast majority of folks are referred by word of mouth.

I help people gain insight about themselves and their lives from their soul's perspective. I also teach small group workshops and mentor others as they develop their own intuition.

Have a question? Confused about a relationship? Let's talk...

Jacque

★★★★★ My workshops are always small group experiences, and include plenty of personal coaching from me. Given that, seating is limited and they do tend to fill quickly. Reserve early to save your seat.
